## Who we are ?

**The Scandinavian Academy for Training and Development** was established in the Kingdom of Sweden, as a specialized professional training center that aims to meet the needs of customers in a comprehensive and effective manner.

The foundation of the Academy is rooted in a strong belief in the importance of education and training as a fundamental foundation for continued social and economic development. We believe that investing in people is the real key to achieving sustainable

This is why investing in human resources is essential for developing institutions and achieving success.

The Academy seeks to promote the principle of investing in human resources as an international standard

Superior in the field of workforce development, by identifying best practices that enhance the performance of institutions and **achieve the desired results**

The Academy has provided a wide range of training courses around the world. It is characterized by directing the individual towards personal and professional development and enabling him to **innovate and create**.

## Who we are ?

**Our courses are flexible and adaptable to suit the needs and abilities of trainees. They cover all scientific, administrative, economic, legal and technological specializations.**

**We are keen to follow modern trends and meet the needs of the public and private sectors, including the oil sector.**

**The Academy operates according to a comprehensive and independent training and development strategy that aims to enhance the sustainable growth of trainees' skills and knowledge.**

**We focus on building and developing their expertise, analyzing their strengths and weaknesses to achieve continuous improvement.**

**Through these efforts, we seek to enhance the positive engagement of individuals in all their roles within organizations, from executive levels to the leadership of the functional hierarchy.**

## To be the first in the world

to provide professional and training programs based on pioneering and sustainable professional development for all clients through their optimal training that meets their expectations and is characterized by innovation, creativity and positive dealing with the outside and inside and changes and developments

## Our message

**We at the Scandinavian Academy for Training and Development have a clear and comprehensive mission: leading and sustainable professional development for all clients by training them to the best level of their expectations.**

**It is characterized by innovation and creativity. We strive to achieve this vision by providing advanced and updated training programs for the latest global practices. So that the trainee becomes a pioneer in his life**

**Private and practical through positive interaction with external variables and developments and modern technology**

**and providing experts and consultants with basic capabilities, distinguished experiences,**

**Academically qualified and equipped with practical experience in various fields and specializations  
This is done by developing integrated solutions and adhering to the highest professional standards.**

**And help at all times and in all cases and listen to customer requirements and design innovative and modern solutions with the continuous pursuit of adding everything new**

**Encouraging employees to participate effectively and strongly in building and developing their institutions**

## Our values
