We are a leading provider of training courses to companies and individuals around the world. We offer a wide range of courses in a variety of subjects. Experienced professionals deliver our courses.

We are committed to providing our trainees with the skills and knowledge they need to succeed in their careers.

The Scandinavian Academy Training and Development offers a wide range of courses in a variety of subjects; including leadership, management, IT, finance, and many more with over 20 of the available courses categories to enhance your career.

Who we are ?

Establishment Story

The Scandinavian Academy Training and Development AB, established in Sweden, is dedicated to providing specialized training that meets the diverse and evolving needs of its clients. Founded on the belief that education and training are the driving forces of societal progress, the academy places human capital at the heart of sustainable development and institutional success. Our commitment lies in delivering measurable results that empower individuals and organizations to thrive in a competitive global environment.

Our programs are designed to foster innovation, creativity, and excellence, offering flexible and adaptable courses that cater to a wide range of disciplines, including scientific, administrative, financial, legal, technological, and economic fields. We stay attuned to contemporary challenges and global trends, addressing the needs of both public and private sectors, including the oil and energy industries.

Each course is tailored to enhance the knowledge and skills of participants, ensuring applicability in real-world scenarios.

Through a strategic and comprehensive approach, we focus on building the expertise and experiences of our trainees, addressing their strengths and areas for improvement to enable continuous professional growth.

Our mission is to empower individuals at all levels—whether they are entry-level executives or senior leaders—to achieve excellence and make a lasting positive impact within their organizations.

By fostering a culture of lifelong learning and innovation, we aim to contribute to the development of sustainable and resilient organizations worldwide

To be a global leader

in delivering professional and training programs that prioritize sustainable development and exceed client expectations. We aim to provide optimal training experiences characterized by innovation, creativity, and adaptability to both internal and external changes and developments, ensuring continuous growth and excellence for all our clients

At the Scandinavian Academy Training and Development AB, our mission is to provide leading and sustainable professional development that meets and exceeds client expectations. Through innovative and creative training programs aligned with the latest international practices, we empower individuals to become leaders in both their personal and professional lives.

We achieve this by embracing modern technology, fostering positive interaction with external changes, and leveraging the expertise of highly qualified consultants with extensive practical experience across diverse fields and specializations.

Our approach includes developing integrated solutions, maintaining a commitment to the highest professional standards, and ensuring constant support for our clients.

We listen attentively to client needs, design tailored, modern solutions, and continuously strive to incorporate the latest advancements. Our goal is to inspire and encourage employees to actively contribute to building and advancing their organizations while achieving their strategic objectives with excellence

Our values

Our goals

Training and development are the strategic options to achieve sustainable development. To achieve this goal, we follow the following:

Address Training Needs

Identify the specific training requirements of public and private sector institutions, as well as the oil industry, to tailor solutions effectively

Develop Customized Training Solutions

Design and develop training programs, packages, and supporting materials that cater to the unique needs of clients

Enhance Organizational Performance

Provide effective training and rehabilitation solutions to improve individual and organizational performance

Promote Excellence in Organizations

Provide High-Impact Programs

Deliver professional development programs that are relevant, effective, and promote sustainable development.

Equip Trainees for the Labor Market

Prepare and qualify trainees to meet the highest standards of labor market needs, ensuring their readiness for future challenges.

Build Strategic Partnerships

Collaborate with major global and specialized entities to achieve the best accreditation and recognition in the field of training and development

our goals

- Offer training programs that contribute to organizational excellence, maximizing the value of human capital in business entities
- Personalized Training for Managers
- Create tailored training solutions for managers, ensuring the right environment and timing to address their unique needs
- Commitment to Quality
- Uphold a commitment to providing high-quality training products and unparalleled customer service
- Continuous Improvement
- Regularly evaluate, develop, and update the Scandinavian Academy's scientific and practical training systems and procedures
- Leverage International Expertise
- Transfer the latest global experiences and best practices through the academy's extensive network of international relationships, especially with European organizations
- Foster Adaptability
- Equip client organizations with scientific concepts and skills that enable them to adapt to future developments and changes, driving meaningful transformation
- Practical Application of Skills
- Ensure that participants gain practical, actionable skills and enhanced methods, enabling them to apply their learning effectively in real-world scenarios
