INTRODUCTION

Projects are the backbone of organizational success, enabling businesses and public institutions to achieve their strategic goals and deliver real value. In today's dynamic environment, effective project management is no longer optional—it is a necessity. Managing constraints such as time, cost, scope, risk, and quality has become increasingly complex, requiring professionals to master modern project management methodologies, tools, and best practices.

This 10-day professional diploma is designed to equip participants with advanced project management skills, covering the entire project lifecycle—from initiation and planning to execution, monitoring, control, and closure. The program integrates traditional and agile project management methodologies, providing hands-on experience with leading project management software and preparing participants for the globally recognized Project Management Professional (PMP®) certification exam based on the PMBOK® Seventh Edition.

Whether you are a project manager, team leader, or business professional looking to enhance your project management capabilities and career prospects, this diploma will provide you with the tools and expertise to deliver successful projects in any industry.

OBJECTIVES

- Develop participants with the skills necessary to initiate, plan, execute, monitor and control, and close projects

- Familiarize participants with the agile project management methodology.
- Hands on exposure to some of the best software to manage projects efficiently.
- Exposure to “Project Management Professionals, PMP” test based on PMBOK seventh edition, conducted by Project Management Institute, PMI, USA.

Target Audience

- Project Managers and Team Leaders
- Business Professionals and Executives
- Engineers, IT Professionals, and Technical Specialists

The Scandinavian Academy for Training and Development adopts the latest scientific and professional methodologies in training and human resource development, aiming to enhance the efficiency of individuals and organizations. Training programs are delivered through a comprehensive approach that includes:

- Theoretical lectures supported by PowerPoint presentations and visual materials (videos and short films).
- Scientific evaluation of participants before and after the program to measure progress and knowledge acquisition.
- Brainstorming sessions and practical role-playing to simulate real-life scenarios.
- Case studies tailored to align with the training content and participants work nature.
- Assessment tests conducted at the end of the program to evaluate the achievement of training objectives.

Each participant receives the training material (both theoretical and practical) in printed form and saved on a CD or flash drive. Detailed reports, including attendance records, final results, and overall program evaluations, are also provided.

Training materials are prepared professionally by a team of experts and specialists in various fields. At the end of the program, participants are awarded a professional attendance certificate, signed and accredited by the Scandinavian Academy for Training and Development.

Program Timings:

- 9:00 AM to 2:00 PM in Arab cities.
- 10:00 AM to 3:00 PM in European and Asian cities.

The program includes:

- A daily buffet provided during the sessions to ensure participants comfort.
