Introduction

Performance management is the foundation of organizational success, employee engagement, and business growth. A well-structured performance management system enables companies to align individual goals with corporate strategy, enhance productivity, and drive continuous improvement.

This 10-day professional diploma provides a comprehensive, hands-on approach to designing, implementing, and optimizing performance management systems. Participants will gain expertise in performance measurement frameworks, employee evaluation techniques, data-driven decision-making, and leadership strategies to foster a high-performance culture.

By blending theory, real-world applications, and interactive workshops, this diploma equips professionals with the tools and methodologies to maximize employee and organizational performance.

General Objective

This diploma aims to provide professionals with the knowledge, tools, and strategies to effectively manage, evaluate, and enhance performance at individual, team, and organizational levels. By the end of the program, participants will:

- Understand the principles and importance of performance management.
- Develop and implement effective performance measurement frameworks.

- Align employee performance with business objectives for increased efficiency.
- Learn how to set SMART goals and key performance indicators (KPIs).
- Apply modern appraisal methods and feedback techniques for employee development.
- Use HR analytics and performance data to drive decision-making.
- Develop leadership skills to foster a culture of accountability and high performance.
- Enhance motivation, engagement, and retention through performance-based rewards.
