## Course introduction

Our Project Portfolio Management training helps professionals develop the necessary skills to monitor resource utilization, cost, and project progress across the portfolio. This PPM training trains professionals to develop a bird's-eye view of all projects within the organization or division. From a portfolio's perspective, this training trains participants to improve resource utilization planning, make appropriate decisions about adding new projects, and continue with the current ones.

## General Objective:

This course aims to equip participants with the knowledge and skills necessary to effectively manage project portfolios, ensuring alignment with organizational strategic goals. By the end of the course, participants will be able to optimize resource utilization, enhance decision-making processes, and improve project selection and prioritization to maximize portfolio performance and overall business success.

The Scandinavian Academy for Training and Development adopts the latest scientific and professional methodologies in training and human resource development, aiming to enhance the efficiency of individuals and organizations. Training programs are delivered through a comprehensive approach that includes:

- Theoretical lectures supported by PowerPoint presentations and visual materials (videos and short films).
- Scientific evaluation of participants before and after the program to measure progress and knowledge acquisition.
- Brainstorming sessions and practical role-playing to simulate real-life scenarios.
- Case studies tailored to align with the training content and participants work nature.
- Assessment tests conducted at the end of the program to evaluate the achievement of training objectives.

Each participant receives the training material (both theoretical and practical) in printed form and saved on a CD or flash drive. Detailed reports, including attendance records, final results, and overall program evaluations, are also provided.

Training materials are prepared professionally by a team of experts and specialists in various fields. At the end of the program, participants are awarded a professional attendance certificate, signed and accredited by the Scandinavian Academy for Training and Development.
