

# Course: Maintenance Planning, Scheduling and Control

Code	City	Hotel	Start	End	Price	Language - Hours
118	Singapore (Singapore)	<b>Hotel Meeting Room</b>	2024-12-16	2024-12-20	6450 €	En - 25

# **Program Objectives:**

## By the end of the program, participants will be able to:

- Apply the latest concepts and techniques needed for effectively planning, scheduling and controlling maintenance activities.
- Manage routine, corrective, as well as large scale preventive maintenance activities.
- Review the critical operational requirements for successful planning and control of the maintenance work.
- Use the right Key Performance Indicators (KPIs) for the measurement and evaluation of the maintenance department.

# This Program is designed for:

Managers, supervisors and planners responsible for maintenance planning, scheduling and control activities. This program is worth 25 NASBA CPEs.

# **Program Outline:**

## **Objectives of Maintenance**

What Is Maintenance?

- Evolution of Maintenance
- Challenges Facing Maintenance
- Types of Maintenance
- Classification of Roles in Maintenance
- Customer Service in Maintenance

## The Work Order System

- Purpose of the Work Order System
- Information Collected on a WO
- Job Estimating Methods
- Prioritizing Maintenance Work

## **Preventive Maintenance (PM)**

- Understanding PM
- Implementing a PM Program
- Establishing Scheduling
- Breaking a Facility Into Logical Parts
- Developing an Equipment List
- Writing PMs
- Developing Equipment Manuals
- Setting Up Inventory

## Planning and Scheduling of Major Maintenance WOs and Shutdowns

- Planning and Scheduling
- Work Breakdown Structure
- Critical Path Method (CPM)
- Resource Scheduling and Leveling

## **Life Cycle Cost of Equipment**

- Capital Budgeting
- Accounting Rate of Return (ARR)
- Payback Method
- Net Present Value Method (NPV)
- Replacement Analysis of Equipment

## **Planning and Controlling Maintenance Materials**

- Inventory Costs
- Considerations in Inventory Decisions
- Economic Order Quantity (EOQ)
- Total Material Cost.
- When to Order

## Safety in Maintenance

- Myths About Safety
- Accidents and Injuries
- Unsafe Acts and Unsafe Conditions
- Cost of Accidents
- Safety Audit

# **Controlling Maintenance Work**

- Measuring Performance
- · Sources of Data
- Backlog Indices
- Schedule Compliance
- PM and Emergency Indices
- Productivity Indicators

The Scandinavian Academy for Training and Development employs modern methods in training and skills development, enhancing the efficiency of human resource development. We follow these practices:

#### • Theoretical Lectures:

We deliver knowledge through advanced presentations such as PowerPoint and visual materials,
including videos and short films.

#### • Scientific Assessment:

 $\circ\,$  We evaluate trainees skills before and after the course to ensure their progress.

### • Brainstorming and Interaction:

 We encourage active participation through brainstorming sessions and applying concepts through role play.

#### • Practical Cases:

• We provide practical cases that align with the scientific content and the participants specific needs.

#### • Examinations:

• Tests are conducted at the end of the program to assess knowledge retention.

## • Educational Materials:

• We provide both printed and digital scientific and practical materials to participants.

## • Attendance and Final Result Reports:

• We prepare detailed attendance reports for participants and offer a comprehensive program evaluation.

#### • Professionals and Experts:

• The programs scientific content is prepared by the best professors and trainers in various fields.

### • Professional Completion Certificate:

Participants receive a professional completion certificate issued by the Scandinavian Academy for
Training and Development in the Kingdom of Sweden, with the option for international authentication.

### • Program Timings:

 Training programs are held from 10:00 AM to 2:00 PM and include coffee break sessions during lectures.
