FA-149	Hamburg (Germany)	Hotel Meeting Room	2026-04-13	2026-04-17	5450 €	En - 25

The Course

Finance and Capital along with Management and Staff are the lifeblood of any business. This programme focuses on the advanced skills necessary for making sound financial decisions in an increasingly competitive, volatile and global market. Skills and decisions which will enable your company to remain competitive, minimise costs, maximise revenues and also reduce/control risk.

The programme therefore focuses on the key areas and skills required:

- Financial Planning and Control:- devising and controlling financial plans fit for the future
- Corporate Finance and Financial Engineering:- how to finance the business
- The Cost of Capital and Capital Investment Appraisal:- calculating and controlling the cost of capital using WACC and CAPM and maximising the Return on Capital and minimising risk by evaluating potential projects using the latest techniques
- Financial Analysis:- evaluate financial data in order to:
 - Assess past performance
 - Identify business Strengths, Weaknesses, Opportunities and Threats
 - Improve Decision Making
 - Implement and Evaluate Performance Measures
 - Aid the Strategic Planning Process
- Business Valuation - Mergers & Acquisition Decisions

The Goals

- Develop the Essential Advanced Skills of Financial Forecasting Budgeting and Control using Excel© and the latest software to develop various forecasting models including Time Series Models, Exponential Smoothing, Regression and Correlation Analysis
- Analyse complex capital investment and financing decisions and provide recommendations for action using appropriate discount rates based on WACC and CAPM by applying Payback, ARR, NPV, Discounted Payback, IRR and MIRR using Excel® including where capital is rationed/limited
- Identify the key success factors/critical factors in their industry/division to evaluate current and future market/competitive trends in order to identify future Opportunities and Threats
- Conduct advanced financial analysis using Excel® and the very latest techniques/methods that result in developing financial strategies and plans
- Conduct company valuations with a focus on merger and acquisition decisions

The Process

The course is highly interactive involving the analysis and evaluation of practical case studies and the discussion/debate of current issues, policies and procedures. It will be conducted along workshop principles to ensure the development of transferable skills as well as knowledge, fully supported with notes in hard copy and on CD.

The Benefits

- Develop their professional skills
- Increase their knowledge of the latest policies and procedures
- Make more informed and hence better decisions
- Increase their importance to their organization
- Be better placed to liaise effectively with other departments and colleagues regarding current practices and issues affecting the banking sector

The Results

- Successfully build an integrated financial team
- Gain new finance skills in line with the latest international practices which will help to make more informed and hence better management decisions
- Increase knowledge of the latest policies and procedures which can be shared amongst other departments of the company
- Facilitate the continuous and radical redesign of business processes to international standards
- Ensure the finance culture permeates throughout the entire organization
- The Core Competencies
- Enhanced knowledge of Finance:- financial planning, sources and uses of finance and the analysis of performance
- Financial Management:- the ability to manage liquidity and international finance
- Capital Investment Appraisal: - the ability to make sound investment decisions
- The latest techniques for evaluating financial and operational performance

The Scandinavian Academy for Training and Development adopts the latest scientific and professional methodologies in training and human resource development, aiming to enhance the efficiency of individuals and organizations. Training programs are delivered through a comprehensive approach that includes:

- Theoretical lectures supported by PowerPoint presentations and visual materials (videos and short films).
- Scientific evaluation of participants before and after the program to measure progress and knowledge acquisition.
- Brainstorming sessions and practical role-playing to simulate real-life scenarios.
- Case studies tailored to align with the training content and participants work nature.
- Assessment tests conducted at the end of the program to evaluate the achievement of training objectives.

Each participant receives the training material (both theoretical and practical) in printed form and saved on a CD or flash drive. Detailed reports, including attendance records, final results, and overall program evaluations, are also provided.

Training materials are prepared professionally by a team of experts and specialists in various fields. At the end of the program, participants are awarded a professional attendance certificate, signed and accredited by the Scandinavian Academy for Training and Development.

Program Timings:

- 9:00 AM to 2:00 PM in Arab cities.
- 10:00 AM to 3:00 PM in European and Asian cities.

The program includes:

- A daily buffet provided during the sessions to ensure participants comfort.
