## Introduction

Setting & Controlling Budgets properly and accurately is fundamental to every successful business. This seminar shows how budgeting is linked to strategy, costing and performance measurement. The purpose of the seminar is to clarify the jargon and methodology of budgeting within the areas of managerial accounting and performance measurement.

### Key learning objectives include:

- Strategic planning
- The linkages between planning, budgeting, costing and performance measurement
- The features of budgetary control
- Cost analysis: fixed vs. variable costs (CVP analysis); direct vs. indirect costs (traditional method and activity-based costing)
- The role of full costing and contribution margin
- Advantages and disadvantages of budgeting

## Objectives

- Link finance and operation for budgeting purposes and strategy execution
- Learn how to build a comprehensive performance measurement system
- Master traditional techniques and recent best practices
- Develop an understanding of the corporate budgeting process
- Be able to interpret the financial impact of strategic directions

- Understand the problems of overheads allocation and how Activity Based Analysis may aid decision-making and pricing strategies

## **Training Methodology**

The seminar is based on a combination of interactive activities - group and individual exercises, case studies, and discussions.

The environment will be a supportive one in which individuals with varying degrees of experience will be encouraged to share the approaches they currently use as well as try out new ones that they encounter on the seminar. The seminar speaker will be on hand to answer any questions a delegate may have and to act as a facilitator for building and applying new approaches.

## **Organisational Impact**

- Better understanding of the strategic planning process
- Cost and budgeting awareness will be enhanced
- Higher chances to select a budgetary system that works
- Broadened knowledge of performance management techniques
