INTRODUCTION

Covering the entire project life cycle, this programme is based on the best practices found in the Project Management Institute's A Guide to the Project Management Body of Knowledge (PMBOK® Guide).

In this programme you will learn how to:

- Establish and accomplish goals that are linked directly to stakeholder needs
- Utilize tried and proven project management tools to get the job done on time, within budget and accordance with requirements
- Work through a proactive approach to risk that will give you a clear understanding of both qualitative and quantitative risk analysis

WHO SHOULD ATTEND?

Individuals from all industries, government bodies, non-profit organizations and any one who are interested in learning techniques for managing projects will find this programme valuable.

- Programme managers
- project managers
- project team members from Members of Process Improvement Teams
- Administrators responsible for managing projects

- Technical professionals and engineers moving into project leadership

PROGRAMME OBJECTIVES

- Establish project goals and objectives that are directly linked to stakeholders' needs
- Develop and use work breakdown structures
- Develop realistic and measurable objectives to ensure positive results
- Estimate project time and costs using proven techniques
- Establish a project control system and monitor progress
- Use a practical, step-by-step process to manage project risk
- Identify threats and opportunities to your project, and weigh their relative value
- Identify and overturn the psychological barriers to risk in stakeholders

TRAINING METHODOLOGY

Project management knowledge, skills, tools and techniques are taught through case studies, experiential exercises and practical examples that can be used immediately to improve your project results.

PROGRAMME SUMMARY

This programme addresses both the “hard” skills and the “soft” skills needed by project managers to plan and control projects. The “hard” skills are the technical “mechanics” of managing a project, while the “soft” skills deal with the human issues, and ultimately, it is people who deliver results on projects.

The goal of this programme is to assist organizations in developing project managers who are aware of the strategic importance that project management plays in the achievement of the mission of their organization, and their role in leading the way to better performance and profits.

The Scandinavian Academy for Training and Development adopts the latest scientific and professional methodologies in training and human resource development, aiming to enhance the efficiency of individuals and organizations. Training programs are delivered through a comprehensive approach that includes:

- Theoretical lectures supported by PowerPoint presentations and visual materials (videos and short films).
- Scientific evaluation of participants before and after the program to measure progress and knowledge acquisition.
- Brainstorming sessions and practical role-playing to simulate real-life scenarios.
- Case studies tailored to align with the training content and participants work nature.
- Assessment tests conducted at the end of the program to evaluate the achievement of training objectives.

Each participant receives the training material (both theoretical and practical) in printed form and saved on a CD or flash drive. Detailed reports, including attendance records, final results, and overall program evaluations, are also provided.

Training materials are prepared professionally by a team of experts and specialists in various fields. At the end of the program, participants are awarded a professional attendance certificate, signed and accredited by the Scandinavian Academy for Training and Development.

Program Timings:

- 9:00 AM to 2:00 PM in Arab cities.
- 10:00 AM to 3:00 PM in European and Asian cities.

The program includes:

- A daily buffet provided during the sessions to ensure participants comfort.
