The Course

Why do some people find problem solving an exciting challenge, where others find it stressful? How do some managers make quick and productive decisions while others put off crucial decisions until the last minute? Which of the two statements best describes your attitude to problem solving and decision making? The answer to the first two questions is that the first group of people work through a tried and tested methodology in order to improve their effectiveness and efficiency in finding solutions and route maps to get things done.

These skills can be learned and this five day programme investigates in detail how you can be a proactive team player in both problem solving and decision making. This highly interactive and fun course takes a step by step journey through the pathways of moving your organisation from identifying the route of the problem, creating solutions and turning them into workable decisions.

The Process

The seminar is carefully designed to address all styles of learning and to engage participants fully. Lectures and discussions are either preceded or followed by powerful individual or group exercises. These exercises provide opportunities for personal participation in real situations. This process makes training fun filled, fast-paced, challenging and empowering. This seminar uses the cutting edge skills of Neuro-Linguistic Programming and Emotional Intelligence to open your mind to how people

think.
