### Introduction

This course is a "must attend" to supervisors and middle managers, those with or without formal training in management, and potential supervisors. Much of what appears in this course is applicable to all kinds of business organizations, but much of the material reflects the unique character of the healthcare organization. It covers a wide range of relevant and important topics.

### Course Objectives

**On Completion of this course you should be able to:**

- Identify the dimensions in which the healthcare manager`s work environment is

changing most significantly, and develop an awareness of the major factors contributing to the evolution of the manager`s role.

- Review the principal paradigm shifts that are contributing to major change in the management and delivery of healthcare.
- Develop an awareness of the major changes brought by the advent of managed care and the impact of the Balanced Budget .
- Review the changes in the managerial role that have occurred in recent years, and offer some projections about future changes in how healthcare managers will approach their work.
- Appreciate the importance of flexibility and adaptability as significant determinants of managerial success.
- Explore supervision and management topics, as proven, hands-on, practical applications of both classic and current management principles in the healthcare setting.
- Build or reinforce your management skills and meet the never-ending challenges that one may face daily by applying strategies, techniques, and tools.
- Deals with the fundamentals of management from the unique context of the healthcare organization

The Scandinavian Academy for Training and Development adopts the latest scientific and professional methodologies in training and human resource development, aiming to enhance the efficiency of individuals and organizations. Training programs are delivered through a comprehensive approach that includes:

- Theoretical lectures supported by PowerPoint presentations and visual materials (videos and short films).
- Scientific evaluation of participants before and after the program to measure progress and knowledge acquisition.
- Brainstorming sessions and practical role-playing to simulate real-life scenarios.
- Case studies tailored to align with the training content and participants work nature.
- Assessment tests conducted at the end of the program to evaluate the achievement of training objectives.

Each participant receives the training material (both theoretical and practical) in printed form and saved on a CD or flash drive. Detailed reports, including attendance records, final results, and overall program evaluations, are also provided.

Training materials are prepared professionally by a team of experts and specialists in various fields. At the end of the program, participants are awarded a professional attendance certificate, signed and accredited by the Scandinavian Academy for Training and Development.

### **Program Timings:**

- 9:00 AM to 2:00 PM in Arab cities.
- 10:00 AM to 3:00 PM in European and Asian cities.

### **The program includes:**

- A daily Coffee Break provided during the sessions to ensure participants comfort.
