INTRODUCTION

Envisioned Security leaders armed with the necessary professional skills and knowledge are the only way to create value added departments. As quickly as the world and technology develops, so do the security risks and threats. Some companies make the gross error of viewing their security departments and employees as lower level functions. However, a good culture of Security will enhance definition of what the Security discipline is all about and explains the value and cost benefit analysis it will bring to the organisation.

So, in order to achieve this consistent level of best practice this training seminar is structured to equip delegates with the specialist security knowledge to perform their management and supervisory duties to international standards in Security Planning, Asset Protection and Integrated Security Projects.

OBJECTIVES

- Identifying the importance and components of an integrated security system
- Identifying and effectively operate access control systems
- Planning and implementing CCTV system
- Identifying the use of Perimeter Protection Systems
- Planning security projects and implementing these effectively
- Creating a programme to protect intellectual property and physical assets
- Running a pro-active professional and dynamic security team

ORGANISATIONAL IMPACT

- Gain an understanding of the strong business reasons why organisations should effectively manage and plan to protect their human, physical andy cyber resources
- Lead to improvements in their organisation's professional reputation, standard operating procedures and the ability to continue to function effectively and successfully in the face of today's many threats

PERSONAL IMPACT

- Gain an improved personal knowledge of threats and risks to their organisation
- Learn new leadership skills to combat these threats and how to implement standards, plans and strategies which will increase their professional reputation
- Improve their ability to deal with any serious security issues

The Scandinavian Academy for Training and Development employs modern methods in training and skills development, enhancing the efficiency of human resource development. We follow these practices:

- **Theoretical Lectures:**
  - We deliver knowledge through advanced presentations such as PowerPoint and visual materials, including videos and short films.
- **Scientific Assessment:**
  - We evaluate trainees skills before and after the course to ensure their progress.
- **Brainstorming and Interaction:**
  - We encourage active participation through brainstorming sessions and applying concepts through role play.
- **Practical Cases:**
  - We provide practical cases that align with the scientific content and the participants specific needs.
- **Examinations:**
  - Tests are conducted at the end of the program to assess knowledge retention.
- **Educational Materials:**
  - We provide both printed and digital scientific and practical materials to participants.
- **Attendance and Final Result Reports:**
  - We prepare detailed attendance reports for participants and offer a comprehensive program evaluation.
- **Professionals and Experts:**
  - The programs scientific content is prepared by the best professors and trainers in various fields.
- **Professional Completion Certificate:**
  - Participants receive a professional completion certificate issued by the Scandinavian Academy for Training and Development in the Kingdom of Sweden, with the option for international authentication.
- **Program Timings:**
  - Training programs are held from 10:00 AM to 2:00 PM and include coffee break sessions during lectures.
