## Introduction

Financial skills and knowledge are vital for all managers in all organisations. A more challenging business and economic climate and an increase in financial delegation is making this even more so.

Many senior professionals miss formal training in finance and often feel uncomfortable when discussing financial matters with their peers and financial professionals. This interactive and engaging programme addresses these important issues.

### Key areas covered in this program include:

- Reading, interpreting and using financial statements (internal and external)
- Improving business cases and decision making
- Costing and presenting plans and proposals
- Working more effectively with budgets
- Delivering improved financial performance, profit & cash flow

## Objectives

### At the end of this program delegates will be able to:

- Read and interpret financial statements
- Analyse business performance
- Contribute to cash and working capital management
- Build budgets and Manage costs and budgets

- Present business cases and utilise financing techniques to improve decision making

## **Training Methodology**

The training uses an interesting mix of lively discussion, case studies and exercises, contemporary examples and videos.

We focus on the practical application of concepts and ideas. Experiences from real business situations and decisions will be used to bring concepts to life. Delegates are requested to bring copies of their organization's accounts together with internal financial reports that they work with.
