Why Choose this Course?

This intensive project management training course offers complete guidance for managing any or all types of projects and will provide you with a solid foundation for best practice project management. The course explores how to ensure projects deliver outcomes which are both client-focused and organizationally relevant.

This course covers key aspects of project definition, planning and control to ensure relevant quality within time, budget and resource constraints. It also tackles team leadership, stakeholder management, project communications and handover to operational use. As Project Management is considered a vital organisational competency - it will also examine the role of the Project Manager and/or the Project Team, who are charged with increasing the organisation`s overall project management capability.

This course will feature:

- An introduction to the world of project management
- Project planning, scheduling and budgeting
- Project resourcing, monitoring and control
- The Project Manager`s roles and responsibilities
- Project evaluation, reporting, closure and hand-over

What are the Goals?

By the end of this course, participants will be able to:

- Integrate projects within the context of the organisation
- Develop quality-focused project plans
- Monitor and control the delivery of projects
- Lead and develop effective project teams
- Maintain communication with project stakeholders

Who is this Course for?

This course is designed for professionals either directly or indirectly involved in the delivery of projects. It is also for those charged with a more strategic role managing project portfolios.

This course is suitable for a wide range of project management professionals but will greatly benefit:

- Existing Project Managers
- New Project Managers
- Project Team Members
- Project Sponsors
- Managers of project portfolios

How will this be Presented?

This course will utilise a variety of proven adult learning techniques to ensure maximum understanding, comprehension and retention of the information presented. This includes small group discussions that will enable delegates to share their own experiences and discuss the course concepts.

Hands-on exercises and case studies will provide the opportunity to practice the use of the models, techniques and competencies covered. Personal assessment, reflection and action planning will ensure that delegates know how they will put the learning into practice.
