The Course

Demands to increase effectiveness and efficiency on leaders and managers in today's current business environment are more prevalent than ever before. A person can become more effective and efficient if they have the desire and willpower to make changes in their work behavior. Certain leadership and management principles, however, must be learned and practiced and these principles do not come naturally. A person learns and develops skills in these areas through a never ending process of self-study, education, training and experience. In a fast paced, continual changing world, personal development is an effective practice a manager must possess to sharpen the wide variety of skills needed to carry out responsibilities and successfully accomplish the organisation's goals.

The purpose of this comprehensive Complete Course on Management and Leadership is to assist persons at all levels in developing or enhancing their ability to lead and manage and achieve extraordinary results. The complete course is designed to be consists of two separate, but closely interrelated modules on management and leadership. It provides practical skills to take back to the job, along with insights needed to adapt principles to specific work environments.

- Principles of self management
