Course: Industrial Hygiene

Code	City	Hotel	Start	End	Price	Language - Hours
EFS-194	Tbilisi (Georgia)	Hotel Meeting Room	2026-11-09	2026-11-13	4950 €	En - 25

Overview:

This programme covers all the key concepts of industrial hygiene, including anticipating, recognising, evaluating, communicating, and control of workplace conditions that have the potential to cause occupational disease and illness. The programme is aimed at individuals and managers who wish to learn more about, or enhance their knowledge, industrial (occupational) hygiene.

the key elements covered include:

- Occupational hygiene programme principles
- Health hazards (biological, chemical, etc)
- Essential sciences (human anatomy, biology and chemical effects)
- Occupational diseases
- Health, sampling, measurement and evaluation techniques

The Goals

- Obtain an in-depth knowledge of the industrial hygiene range of topics
- Learn about the different types of occupational diseases and illness conditions
- Understand how to anticipate, recognise, evaluate, communicate, and control workplace conditions
- Participate in case study exercises and group discussions regarding industrial hygiene management

The Process

Delegates will learn by active participation through interactive presentation tools, supported by videos, delegate exercises and case studies, in which delegates will learn the key elements of industrial hygiene, as related to the business activities of their particular organisation.

Programme Summary

The purpose of this Industrial Hygiene training session is to provide delegates with the key principles and essential knowledge and skills to manage and monitor the professional practice of industrial hygiene, including anticipating, recognising, evaluating, communicating health risks and, the control of workplace conditions that have the potential to cause occupational disease and illness.

The Scandinavian Academy for Training and Development adopts the latest scientific and professional methodologies in training and human resource development, aiming to enhance the efficiency of individuals and organizations. Training programs are delivered through a comprehensive approach that includes:

- Theoretical lectures supported by PowerPoint presentations and visual materials (videos and short films).
- Scientific evaluation of participants before and after the program to measure progress and knowledge acquisition.
- Brainstorming sessions and practical role-playing to simulate real-life scenarios.
- Case studies tailored to align with the training content and participants work nature.
- Assessment tests conducted at the end of the program to evaluate the achievement of training objectives.

Each participant will receive comprehensive training materials, including theoretical content, practical exercises, and supporting resources, provided in both printed and digital formats. Detailed reports, including attendance records, final results, and overall program evaluations, are also provided.

Training materials are prepared professionally by a team of experts and specialists in various fields. At the end of the program, participants are awarded a professional attendance certificate, signed and accredited by the Scandinavian Academy for Training and Development.

Program Timings:

- 9:00 AM to 2:00 PM in Arab cities.
- 10:00 AM to 3:00 PM in European and Asian cities.

The program includes:

- A daily Coffee Break provided during the sessions to ensure participants comfort.
