Introduction

Just because a company needs restructuring – financial or operational – does not mean it will do so. An erosion of Stakeholder value may occur for a variety of reasons, including Management interference. This program shows you how to do things right.

Corporate restructuring is defined as any fundamental change in a company's business or financial structure, designed to increase the company's value. Corporate restructuring is often divided into two parts; either 1) Financial restructuring or 2) Operational restructuring. This seminar emphasizes the practical side of corporate restructuring in today's ever-challenging world. It focuses on the two objectives of the practical application through case studies, examples and Excel® models as well as discussions of alternatives.

Main ideas explored include:

- What is restructuring & what are the alternatives
- When & why should you restructure vs. not
- How to calculate the “real” value of a firm both before & after a restructuring
- What is Leverage; when to use it and how best to finance it
- When to divest an operating unit & how to do it to optimize the remaining value

Seminar Objectives

On completion of this module delegates will be able to:

- Fully understand the various form of restructuring
- Discuss the real difference between Corporate & Financial restructuring
- Know when to acquire vs. divest an operating unit
- How to value an entity or an entire firm
- Know when to Leverage vs. Deleverage
- Learn to use a range of Excel models (provided)

Training Methodology

The training comprises teaching sessions covering each topic area with the theory blended with practical application. Additionally, real world examples & case studies will be used so that the Delegates will be able to apply these techniques immediately. Delegates then use the provided Excel® templates to apply their new knowledge case studies to reinforce the concepts.
