# Course: Developing & Implementing Strategic Marketing Plans

Code	City	hotel	Start	End	price	Hours
468	ONLINE	ONLINE	2024-06-03	2024-06-07	1450 €	25

## Why Choose this Course?

In this course delegates will understand the structured process of how to build a marketing plan customised for their situation. They will find out how marketing planning works and how they should document their ideas in a marketing plan.

They will become competent in developing a marketing plan by going through a number of stages of the marketing planning process. They will work with practical checklists at each stage that enable them to formulate the right questions.

They will master the key elements of a complete marketing plan.

## This course will feature:

- How to analyse the external and internal environment;
- What segments of the market to target and how to choose a proper positioning
- How to set marketing and financial objectives
- How to decide on strategies for products, pricing, channels and communication
- What sales forecasting technique to use

## What are the Goals?

By the end of this course, participants will be able to:

- Construct a marketing plan in general and specifically for their company

- Develop a plan for a new product
- Understand what analyses need to be carried out at the outset
- Define the market, customer segments and buying behaviour
- Apply control procedures necessary to monitor successful implementation of the marketing plan

### Who is this Course for?

Participants are, or will be, involved in strategy development, in the development of marketing plans, in new product planning or work in product development teams

**This course is suitable for a wide range of professionals but will greatly benefit:**

- Professionals of different functional backgrounds, middle managers, marketing professionals without a formal marketing education, sales professionals
- People who plan to start up a new company or a launch of a new product or service within a company

### How will this be Presented?

The training process is a blend of presentation, small group work on real company cases and practical exercises to apply knowledge. Participants are encouraged to bring their own company specific issues to work with.

- Summary

**The Scandinavian Academy employs modern methods in training and skills development, enhancing the efficiency of human resource development. We follow these practices:**

- **Theoretical Lectures:**
  - We deliver knowledge through advanced presentations such as PowerPoint and visual materials, including videos and short films.
- **Scientific Assessment:**
  - We evaluate trainees skills before and after the course to ensure their progress.
- **Brainstorming and Interaction:**
  - We encourage active participation through brainstorming sessions and applying concepts through role play.
- **Practical Cases:**
  - We provide practical cases that align with the scientific content and the participants specific needs.
- **Examinations:**
  - Tests are conducted at the end of the program to assess knowledge retention.
- **Educational Materials:**
  - We provide both printed and digital scientific and practical materials to participants.
- **Attendance and Final Result Reports:**
  - We prepare detailed attendance reports for participants and offer a comprehensive program evaluation.
- **Professionals and Experts:**
  - The programs scientific content is prepared by the best professors and trainers in various fields.
- **Professional Completion Certificate:**
  - Participants receive a professional completion certificate issued by the Scandinavian Academy for Training and Development in the Kingdom of Sweden, with the option for international authentication.
- **Program Timings:**
  - Training programs are held from 10:00 AM to 2:00 PM and include buffet sessions for light meals during lectures.
