The Course

The development, monitoring and continued improvement of a highly-integrated, internal audit function is essential for the continued financial success, stability and growth of world-class business entities. A well designed and effective internal audit system will provide verification and support that accounting and financial policies, procedures and controls are working adequately and will spotlight any significant matters that need attention.

During this program, you will learn how to:

- Understand and recognize the purpose and design of an internal audit function along with practical methodologies in establishing departmental policies and procedures
- Develop a comprehensive internal audit structure, including departmental staffing positions and lines of responsibilities
- Plan an internal audit examination and communicate the findings and conclusions to an Internal Audit Committee and senior management
- Implement the functions of an internal audit department, review various internal control processes and understand the objectives of preparing and presenting findings reports within an organization
- Insure that an internal audit function meets or exceeds best practices in terms of peer group or industry standards

The Goals

- Understand the role and functioning of an Internal Audit Department compared to the role and responsibilities of external auditors
- Develop an Audit Committee Charter for a Board of Directors
- Create personal descriptions and job requirements of an internal audit staff
- Acquire knowledge of the different types and purposes of various audits as to applicability and function, including risk factors
- Planning, notifying and implementing internal audit examinations for selected types of audits to be performed
- Evaluate the effectiveness of in-place internal controls and security policies for organizational networks and information technology frameworks
- Planning for an audit commencement conference meeting
- Understanding relevant documentation as it pertains to professional standards and responsibilities as well as

best practices

- Understanding the need of establishing credibility for an internal audit team
- Communicating audit findings and reports and addressing areas needing improvement
- Planning audit exit conference meetings and distributing internal audit reports within an organization
- Conducting post-audit reviews and compiling internal control updates for Boards of Directors
- Developing audit risk and other risk-related assessments

The Delegates

- Accounting and financial professionals and senior management that are presently or may interface with the daily functioning of an internal audit department.
- Financial and non-financial professionals that are supporting or may be appointed to support or interface with an Internal Audit Committee or that might review internal audit findings and reports for Boards of Directors or investor/shareholder reports for other informational purposes.
- Non-financial professionals that may need to coordinate other activities with an internal audit department and/or share findings, reports or information.

The Benefits

- Presentation and understanding of complex, financial topic terminology, concepts, applications and associated best practices
- Building professional knowledge and expertise in an ever-evolving business environment
- Increased assurance in professional, technical and managerial skills and abilities
- New opportunities to build relationships with other financial professionals through networking

The Results

- Develops financial professionals and senior management by providing advanced education and training in an important, functional control area
- Presents objectives that will further develop and/or improve achieving organizational goals
- Broadens exposure to a wider scope of concepts relative to organizational planning and decision making
- Presents opportunities to engage with other delegates and to pursue further business relationships through networking

The Scandinavian Academy employs modern methods in training and skills development, enhancing the efficiency of human resource development. We follow these practices:

- **Theoretical Lectures:**
 - We deliver knowledge through advanced presentations such as PowerPoint and visual materials, including videos and short films.
- **Scientific Assessment:**
 - We evaluate trainees skills before and after the course to ensure their progress.
- **Brainstorming and Interaction:**
 - We encourage active participation through brainstorming sessions and applying concepts through role play.
- **Practical Cases:**
 - We provide practical cases that align with the scientific content and the participants specific needs.
- **Examinations:**
 - Tests are conducted at the end of the program to assess knowledge retention.
- **Educational Materials:**
 - We provide both printed and digital scientific and practical materials to participants.
- **Attendance and Final Result Reports:**
 - We prepare detailed attendance reports for participants and offer a comprehensive program evaluation.
- **Professionals and Experts:**
 - The programs scientific content is prepared by the best professors and trainers in various fields.
- **Professional Completion Certificate:**
 - Participants receive a professional completion certificate issued by the Scandinavian Academy for Training and Development in the Kingdom of Sweden, with the option for international authentication.
- **Program Timings:**
 - Training programs are held from 10:00 AM to 2:00 PM and include buffet sessions for light meals during lectures.
